Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: page 10, "topper 600" should be –topper 700". Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claim 20 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The specification fails to disclose a foam component which extends from a panel of the foam deck and engages with the innerspring; therefore, one skilled in the art cannot make and/or use the invention as claimed.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6 "the pad" lacks clear antecedent basis.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 22,24,25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Langer et al. in view of Young et al. or Koenigsberg (US 906893, 3010122).

Langer et al. discloses a mattress comprising an innerspring having a plurality of spring elements arranged in an array and defining a first support side, a second support side parallel to the first support side, and a perimeter about the first and second support sides; a foam deck adjacent one of the support sides of the innerspring, and a foam encasement about the innerspring and in contact with the foam deck (see disclosure). Langer et al. discloses the invention substantially as claimed. However, Langer et al. lack a foam deck with parallel and spaced apart panels with a web structure between the panels. Young et al. and Koenigsberg both teach a deck with parallel and spaced apart panels with a web structure between the panels (see Figures). It would have been considered obvious to one of ordinary skill in the art to modify the foam deck of Langer et al. by providing it with parallel and spaced apart panels with a web structure between the panels as taught by either Young et al or Koenigsberg in order to increase the strength of the deck.

Response to Arguments

8. Applicant's arguments filed 11/16/05 have been fully considered but they are not persuasive. With regards to claim 22, applicant argues that the prior fail to teach "the foam encasement extending into the web structure of the foam deck". However, such argument is far more limiting than the claimed subject matter (re claim 22). Applicant argues that neither Young nor Koenigsberg teach a deck with parallel and spaced apart panels with a web structure between the panels. The examiner disagrees. Young et al. and Koenigsberg both teach a deck with parallel and spaced apart panels with a web structure between the panels (see Figures).

Allowable Subject Matter

9. Claims 1-3,5,7-19,21,26,28-39,46-47,49-55 are allowed.
10. Claim 6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
